We are very pleased to announce the 1st PILLARS Conference on Education, Skills, and Worker Retraining, jointly organized by the ifo Institute, Munich and the Catholic University Eichstaett-Ingolstadt. The conference is supported by CESifo and will be held on 18-19 February 2022 in Munich.

The purpose of the conference is to bring together researchers from a broad range of economic fields to discuss ongoing research on the future of work. Papers investigating skill requirements in the digital age and how (re-)training may help workers to adapt to changing work environments and new skill demand are of particular interest.

Papers presented at the conference will be given the opportunity to be published in the CESifo Working Paper Series.

Submissions

Those who wish to participate in the conference are invited to submit extended abstracts or draft papers by using the online conference tool (see submissions link on the left).

The deadline for submissions is 15 October 2021 (midnight CEST). Decisions of acceptance or rejection will be announced no later than 15 November 2021.

About PILLARS

PILLARS – Pathways to Inclusive Labour Markets – receives funding from the European Commission under Grant Agreement Number 101004703. PILLARS aims at providing a comprehensive understanding of the complex dynamics that shape the future of work in the European Union. For this purpose, PILLARS examines past, present, and future developments on the labour market related to automation, globalization, and structural change, thereby contributing to the development of inclusive labour market policies.
